

UNITED STATES DISTRICT COURT
Southern District of Indiana - Indianapolis Division

SENIOR PROGRAMMER ANALYST

Salary: CL 27/29 - \$51,637 - \$119,606

depending on qualifications and experience

Application Deadline: Friday, April 3, 2020, or until filled

The United States District Court is accepting applications for a Senior Programmer Analyst position, who will be responsible for a wide variety of technology support services for the operations of the Clerk's Office, under the direction of the Chief Deputy Clerk. Applicants should have excellent administrative and organizational skills with the ability to effectively communicate both verbally and in writing. Successful candidates will be highly motivated and up-to-date with the latest technology and software programs.

The senior programmer analyst performs professional work related to designing, modifying, and adapting existing software for the court's Case Management/Electronic Case Filing (CM/ECF) system, as well as other nationally developed applications using Perl and Java with Informix, mySQL, and HTML script languages. The incumbent will be responsible for routine database and application server maintenance, application software installation and tuning, system troubleshooting, and end-user support. The duties may also include writing code and meeting with end-users (supervisors, managers, executives, and judges) to analyze their needs and to implement software solutions. The court operates on a multi-hardware and operating systems platform environment that includes Linux, Windows, desktops, laptops, and servers.

QUALIFICATIONS: Minimum four years of specialized experience in web-based application development, administration of supporting database software, operating systems, server platforms, and the following environments/languages: Perl, Java, C#, SQL, HTML, DHTML, and Informix is required. A bachelor's degree in computer science or related field from an accredited college or university, and the following environments/languages: CM/ECF and/or NextGen, Coldfusion, CSS, Drupal, and Visual FoxPro is preferred. Applicants must be detail-oriented, possess excellent problem-solving skills and have the ability to work with multiple software applications in a fast-paced environment.

APPLICATION INSTRUCTIONS: Applications will be reviewed as they are received, and the position may be filled prior to the Application Deadline. Complete application instructions, a detailed position description, and a summary of benefits may be found on the Court's website www.insd.uscourts.gov under Employment Opportunities. To be considered for this position, candidates must submit the entire application package in the manner prescribed by the instructions.

The Court is an Equal Opportunity Employer. This job is classified as a high-sensitive position. The selected candidate must successfully complete a ten year background investigation and every five years thereafter will be subject to an updated investigation similar to the initial one. Employment will be provisional and contingent upon the satisfactory completion of the required background investigation. The Federal Financial Reform Act requires direct deposit of federal wages for court employees. The United States District Court is a smoke-free environment. Please note that federal judicial employees are governed by certain ethical guidelines that generally prohibit the practice of law and significantly restrict the ability to engage in pro bono legal representation and outside employment. They are also prohibited from engaging in any political activities, whether partisan or nonpartisan.
